

Living the Eden Way....to the tune of "Daisy, Daisy..."

Verse 1:

Eden, Eden

Give us the answer - do!

“The System’s” crazy

We need to implement you!

We want to empower our “Rezzies”

And give our care staff prezzies,
And all feel great, (Old ways we’ll
hate)

Eden hurry to our rescue!

Verse 2:

Meaningful activity

Is what it’s all about.

When Elders don’t have it-

We all want to scream and shout!

Show us how to be productive-

To health it is “conductive”.

Principle Six, our box, we “ticks”

And our Elders know they’ve got
clout!

Verse 3:

Pills and Potions, (Lasix and Sennakot.)
We all know that Medicines mean a lot!

But only to treat an illness-
Not always promoting “wellness”.

Help us to keep our “meds” in check-
Happy elders are what we’ve got!

Verse 4:

Elders, Elders

What have they got to say?

We must LISTEN

All growing, day-by-day.

We want them to make decisions
Their lives are in transition

Ask them to Speak

Procedures tweak-

And we’ll all live the Eden way!
