

# Leadership: *Using the Science to Elevate the Art*

In these post Covid times, team development, accountability and flexible leadership are needed. This two-day, immersive and engaging training will lay the foundation needed to drive the change you want to see in your organisation and to create empowered cultures.

## **Drawing from evidence-based approaches . . .**

This innovative workshop delves into the underlying brain science that impacts the workplace and equips you with new tools and practices to build your core competencies as a leader.

### **Participants will:**

- **Explore** human and organisational behaviour from a brain science perspective
- **Understand** the hidden biases that impact our perceptions and undermine our work
- **Identify** cultural attributes that make employees want to stay
- **Redefine** accountability in your organisation
- **Move** beyond the limitations of scarcity thinking
- **Develop** keystone organisational habits to shift your culture
- **Learn** how to develop trust, motivation, and empowerment in your teams
